PROFILE

T-shaped professional combining a BSc in Software Engineering with an MA in Content & Media Strategy (NHL Stenden, NL — expected 2026). Five years building at the intersection of AI-augmented automation, technical marketing, and full-stack web development. Co-founded a digital web studio that delivered **20+ client sites** across four continents. Google Analytics (GA4) certified. I design **human-in-the-loop** workflows that keep teams in control while AI handles the scale — the approach Dutch employers increasingly require under the EU AI Act.

EXPERIENCE

Co-Founder & Digital Lead

2019 – Present

Build Up Addis (Digital Web Studio) · Remote / International

- Delivered **20+ custom websites** for clients across entertainment, healthcare, law, music, and international trade.
- Implemented SEO strategies achieving **40% average improvement** in organic search rankings across client portfolio.
- Designed and deployed **AI-augmented content workflows** using n8n and Make.com, reducing manual production time significantly.
- Managed end-to-end delivery: discovery → UX design → build → GA4 tracking setup → launch.
- Notable clients: Disruptor Pictures, Birbaux Records, Ethio Medical, Dahlak Production, Danny Engineering, Idrofoglia SRL.

Digital Marketing Specialist

2021 – 2023

Barcon Getta · Ottawa, Canada (Part-time / Remote)

- Managed multi-channel digital marketing campaigns for competitive international markets.
- Increased customer engagement by **30%** through targeted SEO, content strategy, and conversion optimisation.
- Optimised WordPress site performance and implemented conversion tracking via Google Tag Manager.

SEO & Content Strategist

2021 – 2023

ip4sure · Eindhoven, Netherlands (Part-time)

- Improved organic search rankings by **25%** for clients through technical SEO audits and content optimisation.
- Developed content strategies that improved user engagement and lead generation for B2B clients.
- Delivered GA4 migration support and custom reporting dashboards for stakeholders.
